
JJ Latea

TECHNICAL COORDINATOR

With a flair for working with computers, JJ loves all things technical. At ODEA, JJ helps manage a variety of technical projects including animation and graphic work. From recording video footage for websites to crafting digital whitepapers, JJ knows how to create captivating visual stories utilizing various platforms.

The continually changing technology landscape keeps JJ on his toes. He likes staying ahead of the curve and bringing his tech knowledge to the team at ODEA. His desire to always be in the know with new trends keeps the firm sharp and always trying new things. For example, JJ helped develop and implement 360 degree programs for a few client projects – staying on trend with the movement toward virtual reality.

JJ also has experience using Adobe Photoshop, After Effects and 3ds Max. Outside of the office, he enjoys exploring Chicago and watching Iron Man for the 30th time.

JJ holds a Bachelor of Science degree in Simulation, Animation and Gaming from Eastern Michigan University.
